

IN2210 Object-Oriented Analysis and Design

Assignment 1

Activity Diagram - SSI Verifier

Troyrangers

204150T-Pathirana S.P.S.N

In our block-chain based vehicle registration and ownership Management system, the SSI verifier verifies the SSI which is sent by the NFT minter, NFT marketplace and other necessary parties. It is verified by using the Indy blockchain and sending a message as response confirming the validation of the details.

This SSI can be used for uniquely identification all over the world and can be verified
